EXPERIENCE

BBD PERFECT STORM (FORMERLY SUBURB DESIGN)
09/2012 - 01/2017
TECHNICAL LEAD | LONDON

Dual role of Technical Lead and Senior Developer (40/60 time split). Key responsibilities were to develop front and back end web and desktop applications, manage the development team (4 devs plus freelancers), define development processes and strategy, documentation and technical contact for clients.

Key clients: Cadbury, Samsung, Converse, Japanese Tobacco International, De Beers, Adidas and Kinder.

CANDI LONDON
06/2012 - 08/2012
.NET DEVELOPER (CONTRACT) | LONDON

Digital agency servicing Morrisons supermarket. My role here was to help build new modules for the Morrisons online shopping website (www.morrisons.co.uk) and add integration with SalesForce

SUBURB DESIGN
01/2012 - 06/2012
.NET DEVELOPER (CONTRACT) | LONDON

Contract developer building highly interactive, advertising campaign based websites and Facebook applications.

Such sites I have worked on in this role are: - www.cadburydairymilk.co.uk – Cadbury's UK Joyville website www.bigsocietycapital.com – Big Society Capital website launched by former UK PM David Cameron to support government big society funding.

AIMIA
07/2007 - 10/2011
SENIOR ANALYST PROGRAMMER | AUCKLAND, NEW ZEALAND

AIMIA (formerly Carlson Marketing Ltd) are a world leading provider of customer and business loyalty programmes for many high profile companies, such as Vodafone, Westpac Bank and Pfizer. In this role I was a front and back end .Net developer who successfully developed a number of high-traffic, 100,000+ user, web based systems.

KINETIQ
01/2005 - 06/2007
ANALYST PROGRAMMER | AUCKLAND, NEW ZEALAND

Kinetiq Ltd are a B2B utilities billing software service. In this role I developed web based billing and process management solutions.

EDIS INTERNATIONAL LTD
05/2004 - 01/2004
ANALYST PROGRAMMER | AUCKLAND, NEW ZEALAND

In this role I developed B2B EDI message translation applications that work closely with various ERP systems, using messaging standards such as XML, ANSI x12 and EDIFACT.

BLUEDAY
05/2003 - 05/2004
JUNIOR PROGRAMMER | AUCKLAND, NEW ZEALAND

Blueday were a digital agency where I undertook my first role as a developer. I worked on building websites for small to medium size businesses using classic Asp, Asp.net 1.0 and Sql Server 2000
